NPM Introduction

Badami Krunal Jaswantlal

Senior React Native & Roku Developer | Scalable Mobile & TV Apps
| Serving Notice Period
Surat, Gujarat, India

Summary

My name is Krunal Badami, and I am one of the fastest developers alive. When I was a teenager I saw something known as JavaScript. Then an accident made me master it. To the outside world, I am an ordinary Senior React Native developer, but secretly I use my speed to code and find others like me. I am the Flash aka code delivery guy.

Experience

LOGICWIND

5 years 6 months

Senior React Native Developer

September 2022 - Present (3 years 5 months)

3rd Floor, Altair, Besides Vijay Sales, Piplod, Dumas Road, Gaurav Path,
Surat, Gujarat 395007

- Demonstrated 4 years of extensive experience as a skilled React Native Developer, consistently achieving results through collaborative teamwork and fostering personal and professional growth within cross- functional teams.
- Led and managed the successful development of a high-impact project for over 1 million users, overseeing 50+ feature branches and parallel sprints with GIT version control, showcasing effective project management skills.
- Implemented Firebase, analytics, and Sentry integration to track mobile app events, resulting in data-driven performance improvements and enhanced decision-making capabilities.
- Crafted responsive designs compatible with various platforms, ensuring optimal user experience across different device sizes and rotations, while delivering interactive, fluid, and pixel-perfect interfaces for large- scale mobile applications.

- Developed social media platforms with live streaming capabilities for a massive user base, skillfully integrating libraries for video and audio playback, including Google Cast and AirPlay, to provide diverse media-related functionalities.
- Proficient in Typescript coding and interface design, emphasizing detailed JSdoc and annotations for React components, utility functions, and files, ensuring code clarity and maintainability.
- Expertly handled REST/GraphQL APIs, enabling effective communication with backend services and seamless app functionality, while efficiently managing sockets and subscriptions.
- Prioritized code analysis and optimization to deliver top-notch app performance and security, resulting in an enhanced user experience. Developed various SH scripts for environment switching, AAB verification, version bump, and env config encryption, streamlining development processes for the RN Team.

React Native Developer

August 2020 - August 2022 (2 years 1 month)

703, SNS BUSINESS PARK, besides Geetha Restaurant, University Rd, Vesu, Surat, Gujarat 395007

- Demonstrated a profound understanding of React Component and core concepts. Utilized advanced EcmaScript features, such as arrow functions, constants, block-scope variables, and class inheritance, showcasing a comprehensive grasp of modern JavaScript/TypeScript development practices.
- Additionally, actively contributed to enhancing the functionality of node_modules through essential patches and integration of Husky for clean code commits and pre-commit functionality within the repository.

Self-employed

React Native Consultant & Tutor

January 2021 - Present (5 years 1 month)

Cappital - Custom App Development Firm

Senior React Native Developer

August 2020 - Present (5 years 6 months)

Irvine, California, United States
